

AMPERE

CUSTOMIZE INNOVATIVE SOLUTIONS

Reference partner for **Electrical and Electromechanical** solutions

Key figures for the AMPERE Group

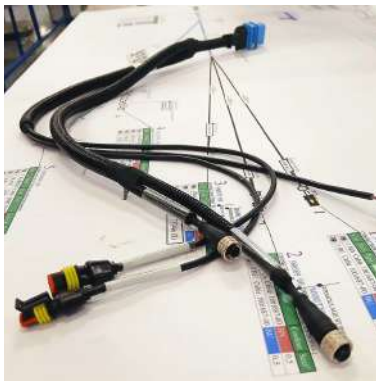

The history of the AMPERE Group began in 2017 with the merger of its two historical entities, **SOFILEC** and **CFCA**. Specialising in cabling, electrical wiring harnesses and electromechanics, the group has been perpetuating its expertise since 1990.

Over 30 years
of expertise

1 000
employees

5
production sites

Our product range

WIRING & ELECTRICAL HARNESSES

- Wires and cables from 0.08 mm² to 300 mm²
- Power cables
- Intercommunication cables
- Wiring harnesses
- Cutting, stripping and marking operations wires and cables

ELECTROMECHANICAL INTEGRATION

- Power cabinets
- Control and automation cabinets
- Energy distribution
- Low Voltage Main Distribution Cabinets
- Electrical panels
- Electrical boxes
- Connector boards

OVERMOLDING

- Cables and overmolded cords
- High and low pressure overmolding
- Overmolding presses
- Steel and aluminum molds

Markets and applications

Handling - Agriculture - Vehicles - Equipment manufacturers
Forklifts, excavators, tractors, buses, trailers, cranes, lifting arms

Aeronautics - Defence
Aircrafts, helicopters, tier 1 and tier 2 suppliers, military vehicles, tanks

HVAC
HVAC in industry, tertiary and domestic sectors

Marine
Pleasure boats, yachts, semi-rigid boats, military

Industries - Robotics - Household appliances
Industrial machineries, production, robots, automation

Medical
Medical imaging, body care

Energies
Electrification, data centres, photovoltaics, infrastructures, networks

Our certifications

ISO 9001
(Quality management)

PART 21G
(Aeronautics)

ECOVADIS
(Group CSR commitments)

UL standards
(Electrical compliance)

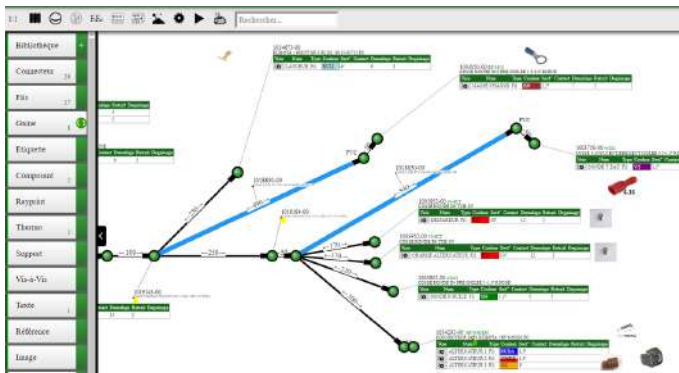

EN9100
(Aeronautics & Defence)

Expertise managed, from design to production

Prototyping centre

- Production of tailor-made prototypes within short timeframes
- Procurement via our distributors and manual manufacturing
- Performance optimisation and cost-efficiency improvements for your solutions
- Technical risk reduction

Technical study and co-design

- Design of cabling, harnesses and electromechanical equipment
- Development and analysis of electrical diagrams
- Sheet metal design
- Innovation and design assistance according to your specific market requirements
- Visits to the client's design office
- Photon in-house design software

Purchasing and production control

- Supply of components and proposals for technical alternatives in the event of shortages
- Group purchasing policy, supply chain management by site
- Creation of Bills of Materials (BOM), routing time and production sheets for each production run

Production and industrialisation

- Prototype and initial samples
- Plan printing at a scale of 1 using Photon software
- Customised production : project and mass production (small, medium and large)
- Industrialisation
- Electrical testing

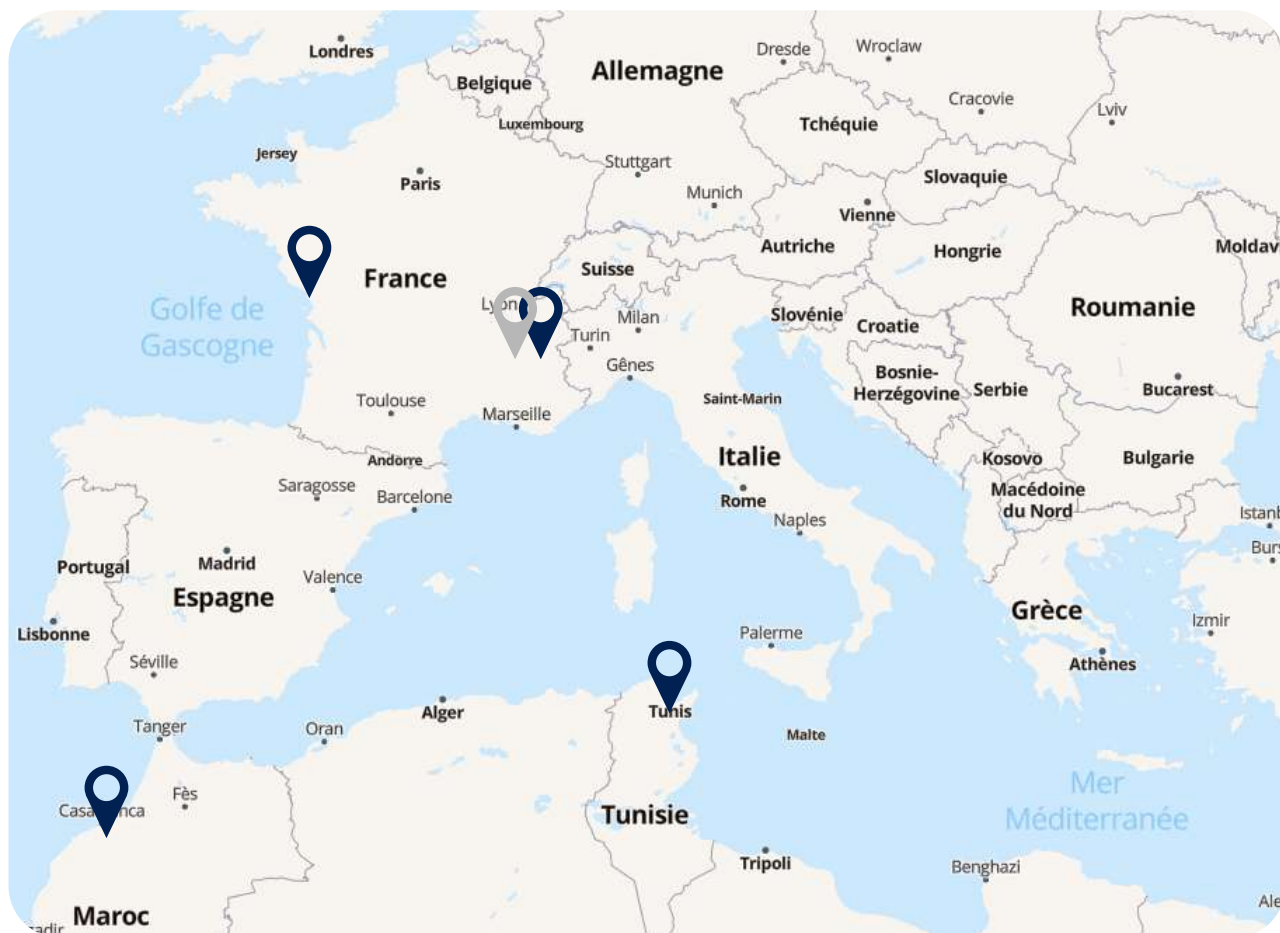

Production equipment

- Cutting, stripping and marking machines and laser machine
- Automatic and manual crimping
- Metallographic cutting
- High and low pressure overmolding presses
- Shaping, bending and cutting copper bars

Our locations

AMPERE HEADQUARTERS

ZI Le Jasmin Saint-Genix-sur-Guiers 73240 Saint-Genix-les-Villages - France

OUR PRODUCTION SITES

AMPERE CORELEM 1&2

BP 9 La Bruyère 01300 Brégnier-Cordon

AMPERE CFCA MOROCCO

ZI route de Marrakech 26100 Berrechid

AMPERE CFCA CHICHÉ

61 Route de Parthenay 79350 Chiché

AMPERE KILOWATT TUNISIA

104 Av de l'UMA 2036 la Soukra Gvt
l'ARIANA Tunis
